

# Foreword

To establish an independent state of Lorem from the cruel government of Ipsum, we the Lorem Partisans fought against the Ipsum Army. On 14 June 2024, we made a decisive success on the Dolor Front. As a result, the Ipsum government accepted our request of negotiation. Resulted the establishment of the Republic of Lorem today.

We must never forget the sacrifice of the Lorem Partisans brothers, who forged the path to independence. As the first president of the Republic of Lorem, I decided to mark 30 June every year as the Independence Day of Lorem, to commemorate these heroes.
